In the 16th century the castle was enlarged on the south side, attaching a rectangular-plan construction, and another body was added with the same orientation as the previous one. The third phase of construction of the main building dates from the 18th-19th centuries. Currently, the Castle operates as a restaurant, with two dining rooms on one side, the main room, for weddings, baptisms, communions, etc., and a private room for birthday parties, company dinners, celebrations, ...
