

Ref: M2396 Groundfloor flat Ramon i Cajal ARGENTONA

325.000 €

DESCRIPTION

We present our new housing development in the centre of Argentona, a project designed with your wellbeing and care for the environment in mind. Efficient and sustainable housing. Renewable energy: Enjoy a self-sufficient home thanks to aerothermal energy and solar panels. Forget about high energy costs and contribute to a more sustainable future. Comfort and well-being: Thanks to aerothermal energy, you will enjoy a pleasant temperature in all rooms all year round, without the need for radiators. Thermal and acoustic insulation: The double-glazed windows and high quality carpentry guarantee excellent thermal and acoustic insulation, reducing outside noise and improving your comfort. Privileged location. Accessibility: The development has been designed without architectural barriers, facilitating access to all the homes and communal areas. Centre of Argentona: Live in the heart of the town, surrounded by all the services and shops you need. Plaza Nueva: Enjoy the social and cultural life of Argentona just a few steps from your home. Tranquillity and comfort: Combine the comfort of living in the centre with the tranquillity of a residential area. Quality and design. High quality finishes: The materials and finishes of the homes have been carefully selected to guarantee their durability and aesthetics. Modern design: The homes have a modern and functional design, designed to maximise space and light. Parking spaces: Each property includes a parking space for your convenience. Delivery scheduled for the 1st quarter of 2026. Don't miss the opportunity to live in an efficient, sustainable home in the heart of Argentona!
